# Master List

## of 75 Finest Varieties of Iris

**One of Each Variety for \$23<sup>50</sup>**  
**Former Value \$1,370<sup>00</sup>**

"Dollar values for Pennies", that is literally what I offer you in my 1934 Master List of 75 Finest Tall Bearded Iris. I have arranged in parallel columns the original prices at which these varieties were introduced, and the prices at which I now offer them to you.

Totaling the first column, I find that the entire list purchased a few years ago would have cost \$1,370.00. Yet I now offer these same 75 finest varieties for only \$23.50, less than 2c on the dollar of the original cost. That is a Bargain with a big B.

You may be fortunate in already having some of these world's best varieties, or you may prefer to start your Collection with a

small number and build up later. In either case you can make your own selection from this Master List with the full assurance that you are getting the very finest Iris that money can buy. They are just as fine today as when they sold for a small fortune, and the plants sent will be the same strong, flowering-size plants.

Now, while you have this Master List before you, is the time to add to your own Collection at little cost.

You will also find in this folder several very fine Peony Collections most attractively priced, and a magnificent Collection of Hardy Oriental Poppies.

### Superb Single Peony Collection

Beautiful for Cutting  
and Display

The single Peonies always attract a great deal of attention. The flowers are very large, borne singly, or in clusters, in great profusion. There is usually a single row of petals with a center of golden stamens that is most pleasing. For landscape effect or for

specimen clumps they cannot be equalled. They stand heat and rain and have a habit of closing in the cool of the evening, to open again the next day. These lovely single Peonies are quite rare. This collection will consist of a magnificent white, a velvety deep garnet red, and a lovely shell-pink.

**All Three for \$2.25 Postpaid**

### Japanese Peony Collection

Semi-Double, Extremely  
Handsome

This class of little known Peonies is still very rare. They are somewhat like the singles, but more developed, the centre stamens of the singles having developed in the Japanese types into narrow petaloids with traces of the yellow of the stamens showing in these petaloids, which are surrounded by one or more rows of guard petals. They are extremely handsome.

**Three rare Japanese Peonies . . . red, white and pink . . . for \$2.75**
